

FYREWASH® F3 WIPES

ROCHEM
FYREWASH®

EFFECTIVE GAS TURBINE COMPRESSOR CLEANING

Highly biodegradable chemical wipes for hand cleaning compressor blades.

FYREWASH® F3 WIPES PRODUCT DESCRIPTION

FYREWASH® F3 WIPES are pre-wetted wipes with the right amount of approved Gas Turbine Compressor Cleaner for manual cleaning operations. The dispenser contains 200 sheets (38x16cm each) of non-woven, lint free wipes on a roll with a sheet separating perforation. After cleaning a dry wipe can be used for total removal of remaining deposits and for drying the parts thoroughly.

FYREWASH® WIPES are designed for manual cleaning of contaminated Gas Turbine parts and prevents the use of non-approved chemicals or linting cloths which can cause damage to parts.

FEATURES and BENEFITS

- Safely and effectively cleans compressors blades
- Extremely effective non-solvent cleaner.
- Meets the most stringent requirements of gas turbine manufacturers.
- Ideal for light and frequent hand washing of any type of industrial, marine or aviation gas turbine to maintain in-service output and fuel efficiency.
- Backed by Rochem's unique high value product liability insurance.
