EFFECTIVE GAS TURBINE COMPRESSOR CLEANING

Highly bio - degradable water based detergent for online & offline compressor washing

Rochem offers a range of powerful specialist compressor cleaning chemicals exhibiting outstanding performance, they're designed for all types of fouling and meet current OEM and environmental standards world-wide. All of the Rochem FYREWASH® chemical range is suitable for both on-line and off-line washing.

FYREWASH® F4 PRODUCT DESCRIPTION

FYREWASH® F4 was developed to give the maximum possible cleaning efficiency and effectiveness from a non-solvent chemical. FYREWASH® F4 has superior cleaning qualities that are non-hazardous, user-friendly and highly biodegradable which now sets the standard against which the performance and cost effectiveness of all other true nonsolvent water-based gas turbine compressor cleaners can be judged.

Approved & meets most major OEM's specification world-wide and has a high temperature stability.

FYREWASH® F4 can be used with any on-line/off-line injections system, but for optimum cleaning results and economic usage of chemicals, use with a Rochem FYREWASH® specialist cleaning system designed specifically for your gas turbine types.
